DETAILED ACTION

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

Non-initialed and/or non-dated alterations have been made to the oath or declaration. See 37 CFR 1.52(c).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3, line 4, 5, is not clearly understood.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2831

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Paik et al.

Paik et al disclose a semiconductor chip (1), a plastic coating made of polymer (epoxy-based encapsulant) (col 5, line 48) with a thickness in a micrometer range (abstract, lines 9, 10)

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Paik et al

The teaching of Paik et al as discussed above does not disclose the plastic coating selected from a thermoplastic, colophony, a phthalate resin, a dimethyl glycol phthalate.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to use a thermoplastic, colophony, a phthalate resin, or a dimethyl glycol phthalate for the plastic coating of Paik et al, since it has been held to be within the general skill

Art Unit: 2831

of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

Claims 10-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Paik et al

The teaching of Paik et al as discussed above does not disclose the feature of claims 10-12.

The feature of claims 10-12 is well known. It would have been obvious to one having ordinary skill in the art at the time the invention was made to include the features with the package of Paik et al for intended purposes.
